Segment

RFM Customer Segmentation Cohort Definitions Matrix: • Champions: Top tier high-value repeat buyers with active purchase patterns. • Loyal Customers: Frequent buyers demonstrating high brand affinity value metrics. • Potential Loyalists: Recent buyers with average frequency and up-trending monetary spend. • At Risk / Hibernating: Past high-value accounts demonstrating significant recency churn gaps. • Lost: Inactive customer arrays with absolute low frequency and monetary engagement. Data Governance Note: This visualization mapping engine excludes approximately 24.9% of raw transaction data rows that contained no valid Customer ID field value parameters during backend ETL cleaning execution loops.

Top 10 Products by Cancelled Units

Invoice Cancellation Rate:14.81%

Governance Note: This baseline threshold index is statically imported directly from backend Python ETL preprocessing calculation loops to ensure total operational accuracy.
